# FIELD LEVEL HAZARD ASSESSMENT

**EXAMPLE ONLY · FLHA #DEMO-001 · SIGNED REVISION 2**

| | |
|---|---|
| **Work title** | Inspect and service ground-level communications cabinet |
| **Company** | Example Field Services Ltd. (fictional) |
| **Location** | Illustrative Alberta worksite (not an actual site) |
| **Date** | October 2026 — sample |
| **Worker type** | Crew · two fictional participants |
| **Status** | Completed — example record |

SAMPLE • NOT FOR USE

## Job overview

Inspect a locked, ground-level telecommunications cabinet; check external cabling and enclosure condition; perform non-energized visual inspection under employer-approved procedures. Confirm site conditions, access and isolation requirements before work.

## Example hazards and controls

**1. Vehicle movement near roadside cabinet**
Initial risk: HIGH • Residual risk: LOW
**Controls:** Park safely; establish a visible work zone and maintain separation from moving vehicles.

**2. Unexpected energization or damaged conductors**
Initial risk: HIGH • Residual risk: MEDIUM
**Controls:** Do not touch exposed conductors; follow required authorization and isolation procedures; stop and escalate unknown electrical conditions.

**3. Slips, trips and uneven gravel**
Initial risk: MEDIUM • Residual risk: LOW
**Controls:** Inspect the approach, keep equipment off walkways, use suitable footwear and good housekeeping.

**4. Cold conditions reducing dexterity**
Initial risk: MEDIUM • Residual risk: LOW
**Controls:** Verify current weather; wear suitable layers and gloves and take warming breaks as needed.

## PPE and emergency planning

PPE to verify: protective footwear, task-appropriate gloves, eye protection and visibility clothing as required by the employer. Emergency arrangements: confirm site address, communication method, muster point and suitable medical services before work.

# Revision & acknowledgement history

**Revision 1:** Initial hazards and controls reviewed. Fictional crew acknowledgements recorded.

**Revision 2:** Site access conditions changed. Vehicle-separation control revised. Both fictional workers reviewed and signed the new revision.

## Sample participant acknowledgements

| Worker | Revision | Acknowledged |
|---|---|---|
| Alex Morgan (fictional) | 2 | Sample signature recorded |
| Jordan Lee (fictional) | 2 | Sample signature recorded |

## Example photographic evidence

**Photo evidence item 1:** Cabinet exterior — illustrative placeholder. Real completed FLHA PDFs display uploaded evidence when present.

PHOTO PLACEHOLDER

No actual worksite photographs included in this fictional sample.

**Demonstration only.** Names, site and hazards are illustrative and do not constitute a real signed assessment, permit, safety approval or site-specific hazard control plan.
